

Introduction to Web Development: JavaScript

Class 6: Preparation

Today we will explore the building of functions with JavaScript. Our focus will be fivefold.

1. Function declarations
2. Function expressions
3. Immediately Invokable Function Expressions (IIFE)
4. Property Methods
5. Arrow Functions

Today's learning outcomes:

- 1) Develop an understanding of the different kind of functions within JavaScript.
 - [Function Declarations & Expressions | Modern JavaScript From The Beginning \(oreilly.com\)](#)
- 2) Develop an understanding of using the ES6 JavaScript feature of arrow functions.
 - [JavaScript ES6 Arrow Functions Tutorial - YouTube](#)
 - [JavaScript Arrow Function \(w3schools.com\)](#)
